# **NEW YEAR MESSAGE TO THE PRESIDENT OF THE REPUBLIC OF KOREA**

**Press Statement Published by the Korean Central News Agency**

*January 2, 2024*

It is a ritual for people to give and take greetings and well-wishing remarks on the occasion of the New Year, so I've sent New Year greetings to many friends.

Then, I saw the so-called New Year address made by President Yoon Suk Yeol of the Republic of Korea (ROK) on January 1, and I came to realize that I was missing this "indebted person" for a moment.

And I felt an impulse to send greetings to him, who is very busy "spreading the north nuclear and missile phobia" in his utterly troublous house from the outset of the new year, saying that "they will complete the south Korea-U.S. extended deterrence system by the first half of this year to contain the nuclear and missile threats from the north" and that "they will further speed up the building up of south Korea's three-axis defence system in the face of the north's nuclear and missile threats", and "praise" him for the "feats" he has made so far.

The present security situation on the Korean peninsula is so critical that it may be not strange to see the outbreak of war at once, and the security uneasiness has become a commonplace in the ROK. This is entirely ascribable to the "merits" of President Yoon Suk Yeol.

This person, whose thinking faculty and personality had been very strange since he sought to take power, has persistently called for "peace by force" and got hell-bent on the beefing up of the extended deterrence and the south Korea-U.S. joint military exercises after coming to power, thus putting the destiny of the ROK on the last extremity. So everyone is critical of him, but I would like to "praise" him.

I don't know if others can regard my meaning as jeers, but it is from the bottom of my heart.

He turned the ROK into a "target" with the introduction of U.S. nuclear strategic assets and expanded indiscriminate joint military drills of various scales all the year round, making such rhetoric threats as "end of regime", and thus incited the anger of the DPRK, "principal enemy" of the ROK, to the utmost and made us totally slip the safety catch of "trigger" of arms targeting Seoul. Such "ability" is not what anyone can possess.

It is obvious that the accusations against President Yoon Suk Yeol who destroyed the security as a whole, will grow stronger in south Korea. But he deserves to be praised by us as the "top-class person" who made a significant "contribution" to building up the self-defensive and irresistible military muscle on the part of the DPRK.

It is much easier to deal with a stupid, honest man who has shown his hostility against the enemy than a wicked man with honey in his mouth and a sword in his heart.

Thanks to the frequent introduction of U.S. nuclear carriers, nuclear submarines and nuclear strategic bombers allegedly to frighten anyone, the DPRK could develop its military capabilities in a reasonable and effective way.

As they defined and announced the regime and the army in the north as their "principal enemy to be destroyed", we could make clear who is our true enemy and further develop our outlook on the enemy like a sharp bayonet. As they talked about "unification under the liberal democracy" like monk's chanting prayers, we could awaken our people to prevent them from falling into such illusions as "national reconciliation and unity and peaceful reunification". As they began to reconsider provisions of the September 19 north-south military agreement, the military activities of our army, which had been placed under restraint for years due to such agreement as wastepaper, came to get winged again.

How small can that "merits" be?

Such a world reminds me of Moon Jae In, the former master of Chongwadae.

He was a very sagacious and crafty man.

He, pretending weak-mindedness, closely clung to us, offering a package of peace in order to bind our hands, and behind laid obstacles in our efforts to bolster up the prospective military capabilities for deterring the U.S. and its war servants while inwardly meeting all his needs.

He was so good at pretending and captivating us as if he would do anything for us, talking about "same blood", "peace" and "co-prosperity" in an inarticulate way of speaking peculiar to him.

In retrospect, he was a man so difficult to deal with and a person really good at securing security.

He pleaded for the ban on nuclear and missile launch tests to us, but behind he imported dozens of U.S. F-35As, commissioned several submarines and realized the complete abolition of the missile range restriction measure, sticking to his master.

A soft answer turned away wrath.

It was a great loss that we, seized by his seeming "will for peace", lost a lot of time which we should spend for enhancing our combat efficiency.

When I think of it now, if the second Moon Jae In had taken the power, it should have been a serious trouble to us.

It is a golden opportunity to us that Yoon Suk Yeol, a "brave" man close to ignorance, has taken the presidential position.

It is because Yoon is helping us to make up for our above-said loss ten times, twenty times or more.

The tremendous military muscle we are so satisfied with and trust in may have been hard to be secured in such a short span of time without the military confrontation attitude that Yoon showed so wildly and his clamoring for "collapse" of our country and "punishment".

It may be glad to hear or thankful that anyway Yoon's pledge to complete the "ROK"-U.S. extended deterrence system by the first half of this year in his New Year address gave us again the justification and validity to further put spurs to securing more overwhelming nuclear combat capability.

We were presented with a truly "valuable gift".

President Yoon, indeed, deserves to be granted the title of "special class hero", as he makes steady "contributions" without asking for any reward for his efforts to bolster up the military muscle of the DPRK.

Given the maniac attitude for confrontation being posed by President Yoon from the outset of the new year with the "north wind" and "arms wind", it is obvious that, not content with his deed of putting the delicate destiny of the imperiled ROK on the dressing board last year, he is going to put it on a hot griddle this year.

Not sure to say for the ROK, but, anyway for us, it is a pretty good chance that a "brave president", who feels no anxiety even about the consequence to be entailed by his behavior and words, appeared.

I cordially welcome ROK President Yoon Suk Yeol's pledge to continuously render "distinctive services" to the rapid development of our state's military superiority in the new year, too.

## **MISJUDGMENT, CONJECTURE, OBSTINACY AND ARROGANCE WILL INVITE IRRETRIEVABLE MISFORTUNE**

**Press Statement Published by the Korean Central News Agency**

*January 7, 2024*

What disgraceful result is engendered, if someone is engrossed in antagonism and confrontation hysteria?

A vivid scene was shown by the military gangsters of the Republic of Korea (ROK) through practical action.

The Joint Chiefs of Staff of the ROK on Jan. 6 announced that the Korean People's Army (KPA) launched artillery firing in the southwestern waters for two consecutive days of Jan. 5 and 6.

The military gangsters claimed that the north fired more than 60 shells from the northwest of Yonphyong Island from 4:00 to 5:00 p.m. on Jan. 6 and the shells dropped in the sea buffer zone north of the "northern limit line" in the West Sea

They warned seriously that shelling in a no-hostility zone is an act of threatening peace and escalating tension on the Korean peninsula, and strongly demanded an immediate stop. If the north threatens the people of the ROK through continuous artillery firing in the no-hostility zone, the ROK army will take due military measures and overwhelmingly respond to it on the principle of "promptly, strongly and to the end", they added.

Media of the ROK make a fuss, carrying all at once the military gangsters' announcement in papers and screens.

It is needless to mention how the ROK people are shocked.

It seems now that the KPA must have been branded as a "provoker" and "chief criminal escalating tensions."

However, the KPA did not fire even a single shell into the relevant waters.

The ROK military gangsters quickly took the bait we threw.

We conducted a deceptive operation in order to assess the real detecting ability of the ROK military gangsters engrossed in bravo and blind bravery while crying for "precision tracking and monitoring" and "striking origin" whenever an opportunity presents itself and give a burning shame to them who will certainly make far-fetched assertions.

The KPA watched the reaction of the ROK military gangsters while detonating blasting powder simulating the sound of 130 mm coastal artillery for 60 times.

The result was clear as we expected.

They misjudged the blasting sound as the sound of gunfire and conjectured it as a provocation. And they even made a false and impudent statement that the shells dropped in the sea buffer zone north of the "northern limit line" in the West Sea.

The ridiculous behavior of these puppets in military uniform is nothing new today.

When a bird flock appeared in the sky above the West Sea before, they mistook it for our plane and made a sortie of a fighter. They also insisted that a latrine door on a hill was a "north drone that made a southward invasion". They are none other than the ROK military gangsters.

As they had such records, the group of gangsters had no choice but to swallow the bait we threw this time.

I cannot but say that the ROK people are very pitiful as they entrust "security" to such blind persons and offer huge taxes collected with blood.

It is better ten times to entrust "security" to a dog with a developed sense of hearing and smell.

If an unexpected case occurs due to misjudgment, conjecture, obstinacy and arrogance of such ignorant military gangsters, think twice what danger will be exposed to Seoul where more than 10 millions of people are crowding.

There is a saying that a coward was frightened by his own shadow.

The enemy might behave stupidly for the sake of pride misjudging the thundering roar in the northern sky in the future as artillery fire of the KPA.

I make myself clear once again that the safety catch of trigger of the KPA had already been slipped.

As already declared, the KPA will launch an immediate military strike if the enemy makes even a slight provocation.

The military gangsters should bear in mind that they can "die instantly and forcefully and end" if they continue to resort to the so-called principle of counteraction such as "promptly, strongly and to the end" often touted by them.

Misjudgment, conjecture, obstinacy and arrogance will invite irretrievable misfortune.

**PRESS STATEMENT OF KIM YO JONG, VICE  
DEPARTMENT DIRECTOR OF THE CENTRAL COMMITTEE OF  
THE WORKERS' PARTY OF KOREA**

*February 15, 2024*

Japanese Prime Minister Kishida reportedly said at a recent meeting of the Budget Committee of the House of Representatives that he badly feels the need to boldly change the present situation prevailing between Japan and the DPRK. He also underlined the need to actively establish relations with the President of the State Affairs of the Democratic People's Republic of Korea (DPRK), adding that he is now making sustained efforts to do so through different channels.

I also take note of the fact that Japanese media commented with regard to Prime Minister Kishida's remarks that the stand on the DPRK-Japan relations expressed by him was different from the previous one.

I think there would be no reason not to appreciate his recent speech as a positive one, if it was prompted by his real intention to boldly free himself from the past fetters and promote the DPRK-Japan relations.

It is the fact recognized by everyone that the relations between the two countries have deteriorated for decades since Japan has persistently raised as a precondition the abduction issue, which had already been settled, or the settlement of nuclear and missile issues which have nothing to do with the repair of the DPRK-Japan relations.

It is my opinion that if Japan makes a political decision to open up a new way of mending the relations through its courteous behavior and trustworthy action on the basis of courageously breaking with anachronistic hostility and unattainable desire and recognizing each other, the two countries can open up a new future together.

Only a politician, who has sagacity and strategic insight for looking far into the future, instead of sticking to the past, and the will and executive power to make a political decision, can take an opportunity and change history.

If Japan drops its bad habit of unreasonably pulling up the DPRK over its legitimate right to self-defence and does not lay such a stumbling block as the already settled abduction issue in the future way for mending the bilateral relations, there will be no reason for the two countries not to become close and the day of the prime minister's Pyongyang visit might come.

I think our state leadership still has no idea of repairing the DPRK-Japan relations and has no interest in contact.

It is necessary to watch the ulterior intention of Prime Minister Kishida in the future.

This is just my personal view only and I am not in the position to officially comment on the relations between the DPRK and Japan.

**PRESS STATEMENT OF KIM YO JONG, VICE  
DEPARTMENT DIRECTOR OF THE CENTRAL COMMITTEE OF  
THE WORKERS' PARTY OF KOREA**

*March 16, 2024*

Kim Jong Un , general secretary of the Workers' Party of Korea and president of the State Affairs of the Democratic People's Republic of Korea, used the Russia-made private car sent by Vladimir Vladimirovich Putin, president of the Russian Federation, as a gift on February 18 for the first time at an open event on Friday.

The special function of the private car is perfect and can be thoroughly trusted.

I am very pleased that the supreme leader of our Party and state uses the special private car sent by the head of state of Russia as a gift.

Kim Jong Un 's using of the private car sent by the president of the Russian Federation as a gift is a clear proof of the DPRK-Russia friendship which is developing in a comprehensive way on a new high stage.

We send our heartfelt thanks to Moscow once again.

**PRESS STATEMENT OF KIM YO JONG, VICE DEPARTMENT  
DIRECTOR OF THE CENTRAL COMMITTEE OF THE  
WORKERS' PARTY OF KOREA**

*March 25, 2024*

Last month, I gave my view on the fact that Japanese Prime Minister Kishida expressed his desire for DPRK-Japan summit talks at the Diet.

Shortly ago, Kishida, through another channel, conveyed his intention to personally meet the President of the State Affairs of the Democratic People's Republic of Korea as soon as possible.

As already mentioned, what is important in opening a way out for the improved DPRK-Japan relations is for Japan to make its political decision in actuality.

The history of the DPRK-Japan relations gives a lesson that it is impossible to improve the bilateral relations full of distrust and misunderstanding, only with an idea to set out on a summit meeting.

If Japan is mulling interfering in the exercise of our sovereign right as now, being engrossed in the abduction issue that has no further settlement and way to know, the prime minister can not but meet a criticism that his design is little short of a bid for popularity.

What is clear is that when Japan infringes upon the sovereignty of the DPRK, doggedly standing hostile to it, the former will become a target of the latter, being regarded as its enemy, never a friend.

If Japan truly wants to improve the bilateral relations and contribute to ensuring regional peace and stability as a close neighbor of the DPRK, it is necessary for it to make a political decision for strategic option conformed to its overall interests.

The DPRK's strengthened self-defence capability will never be a threat to the security of Japan, if the latter respects the former's sovereignty and security interests in a fair and equal stand.

The prime minister should be aware of our government's clear stand.

He should not think that it is possible for him to meet our state leadership when he has wanted and decided or such request for summit can be accepted.

**PRESS STATEMENT OF KIM YO JONG, VICE  
DEPARTMENT DIRECTOR OF THE CENTRAL COMMITTEE OF  
THE WORKERS' PARTY OF KOREA**

*March 26, 2024*

Through a press conference of the chief Cabinet secretary on Monday afternoon, the Japanese side clarified the stand that it can never accept the fact that the abduction issue was settled.

Letting out the expression of pending nuclear and missile issue which has nothing to do with it, it tried to interfere in and take issue with the exercise of sovereignty belonging to the DPRK's legitimate self-defense.

Japan has no courage to change history, promote regional peace and stability and take the first step for the fresh DPRK-Japan relations.

This is proved by the attitude of Japan clinging to the unattainable issues which can never be settled and have nothing to be settled.

The remarks made by Prime Minister Kishida about the DPRK-Japan summit, which have recently attracted the public attention several times, can be regarded as the politically-motivated one.

The DPRK-Japan relations should not be used for the political calculation of the Japanese prime minister who is aware of his lowest approval rate.

It was the Japanese side that knocked at the door first requesting "the Japan-DPRK summit without preconditions", and the DPRK only clarified its stand that it would welcome Japan if it is ready to make a new start, not being obsessed by the past.

The DPRK government has clearly understood once again the attitude of Japan and, accordingly, the DPRK side will pay no attention to and reject any contact and negotiations with the Japanese side.

The DPRK-Japan summit is not a matter of concern to the DPRK.

## **EVIL DOER'S AUDACITY CAN NEVER WORK ON US**

**Press Statement Published by the Korean Central News Agency**

*April 24, 2024*

The regional situation has been plunged deeper into a dangerous vortex due to the U.S.-led hostile forces' ceaseless military moves.

The U.S., as ever, doesn't miss the chance for making stereotyped far-fetched assertion with evil doer's audacity terming our activities pertaining to our right to self-defence a "violation of UNSC resolution" and a "grave threat to regional and international peace and security".

The world should understand the issue correctly.

The U.S., together with Japan and the ROK puppets, are ceaselessly staging military exercises under various codenames against the DPRK almost every week. Witnessing such muscle-flexing alone, one can easily understand the reason why tensions are soaring in the region like a kindled detonating fuse.

The U.S., which kicked off its madcap war drumbeats in the new year through a "joint combat firing drill" with the gangsters of the ROK puppet army on Jan. 4, has frantically staged war drills under various codenames such as "drill of neutralizing CBR weapons storage facilities", "allied cyber training" and "joint special operation drill".

From January 15 the U.S., together with Japan and the ROK puppets, conducted a "joint maritime drill" with the involvement of its nuclear carrier Carl Vinson for four days in the waters off Jeju Island.

On the first day of the drill, the chairman of the joint chiefs of staff of the ROK puppet army appeared on the nuclear carrier to make a false show of power, saying "ROK-U.S.-Japan maritime drills have made a core contribution to deterring and coping with the ever-escalating nuclear and missile threats from the north."

In February the U.S., together with the gangsters of the ROK puppet army, were hell-bent on such drills as "joint marine corps drill", "winter joint drill", "joint air drill"

and "commanding communication drill". Not content with this, it staged 48 rounds of extremely offensive and provocative war exercises day and night in March, including "joint air strike drill", "joint tactical live-firing drill", "joint drill for air-to-air firing and air-to-ground bombing", "Ssangmae joint air drill" and various outdoor mobile drills, under the signboard of Freedom Shield, the large-scale joint military exercise.

In April, too, the U.S., Japan and ROK puppets have ceaselessly staged reckless military drills with the involvement of U.S. nuclear strategic assets.

On April 2, a tripartite air drill involving U.S. nuclear strategic bomber B-52H was staged. A few days later, a naval drill was kicked off with the U.S. nuclear carrier Theodore Roosevelt involved.

A "joint airborne infiltration drill" was staged on April 18. Furthermore, a "combined joint formation drill," which was launched on April 12 with more than 100 warplanes involved, will last till April 26.

In August last year, the summit meeting of the U.S., Japan and the puppet ROK, held at Camp David in a suburb of Washington, specified, planned and formulated all these nuclear war provocation against the DPRK and decided to stage tripartite military drills annually, and all the above-said drills that have been accordingly staged are "rehearsals" designed to put the U.S. nuclear war scenario against the DPRK into practice.

Entering this year, the U.S. has staged more than 80 rounds of military drills with its lackeys and those individually staged by the ROK puppets total more than 60. This evidently shows who the arch criminals straining the regional situation are.

Nonetheless, the U.S. and its stooges are behaving like a guilty party filing the suit first.

Who are the real criminals disturbing peace and stability?

We will continue to build up our overwhelming and most powerful military muscle to defend our sovereignty and security and regional peace.

No one can break our determination.

If the U.S. persists in its moves to threaten the security of the DPRK, boasting of its strength by rallying its stooges, the security of the U.S. and its allies will be exposed to greater danger.

The U.S. should stop fostering the reckless bravery of its top-class minion ROK.

Of course, a scared dog barks louder, but the bosses of the ROK puppet military gangsters have gone too far in their barks recently.

If they attempt at armed counteraction against the DPRK counting on their master, they will be immediately annihilated.

**PRESS STATEMENT OF KIM YO JONG, VICE DEPARTMENT  
DIRECTOR OF THE CENTRAL COMMITTEE OF THE  
WORKERS' PARTY OF KOREA**

*May 17, 2024*

As already reported, our defence industry has made rapid progress, repeating technological transformation.

I am not going to give another explanation of it but I feel need to take the fact that the hostile forces are misleading the public opinion with a false rumor that the weapon systems produced by the DPRK are "for export to Russia".

As we have already stated several times, the "rumor about arms dealings between the DPRK and Russia" woven with mistaken view and fiction is the most absurd paradox which is not worth making any evaluation or interpretation.

The technology of weapon systems we have recently developed and updated cannot be open to the public and, therefore, the possibility of export itself cannot be discussed.

We have no intention to export our military technical capabilities to any country or open them to the public.

But to satisfy great curiosity, I make our stand clear.

The recent diverse activities in our national defence sector are pursuant to the five-year plan for our national defence development and it is aimed at bolstering our army's combat efficiency from A to Z.

What is most urgent for us is not to "advertise" or "export" something, but to make the war readiness and war deterrent of our army more perfect in quality and quantity and to make the enemy unable to overcome the inferiority in military capability.

No matter how much rhetoric they spread with such wild guess as that our weapon systems are "for export", it would not be easy for them to allay their security

uneasiness while seeing our increased military muscle which they are hard to feel actually.

Tactical weapons including multiple rocket launchers and missiles shown by us recently are produced to discharge the only one mission.

We don't conceal the fact that such weapons will be used to prevent Seoul from inventing any idle thinking.

The more persistently the U.S. resorts to different military acts of threatening the DPRK by instigating the ROK military vassals and the more desperately the ROK keeps clinging to its confrontation posture while boosting its reckless "boldness", in reliance on its master, the more thickly the dark clouds and shadow of curse would hang over their heads.

We will more briskly conduct necessary activities in direct proportion to the undisguised and tricky political scheme by the hostile forces against our state.

**THE R.O.K. IS NOT ENTITLED TO CRITICIZE THE FREEDOM  
OF EXPRESSION OF THE PEOPLE OF THE DEMOCRATIC  
PEOPLE'S REPUBLIC OF KOREA**

**Press Statement Published by the Korean Central News Agency**

*May 29, 2024*

As already warned by the DPRK vice minister of National Defence, a large amount of waste paper and rubbish are being scattered in the border and deep areas of the ROK from the night of May 28.

According to the ROK media, waste paper and rubbish were found not only in the border area with the DPRK but also in Seoul and other parts of the ROK.

The Joint Chiefs of Staff of the ROK puppet army said that the DPRK is scattering a large number of balloons over the ROK from last night. It urged the DPRK to stop such an act at once, claiming that it is a clear violation of international law, an act of seriously threatening the security of ROK people and an unethical and lowbrow act.

We have tried something they have always been doing, but I cannot understand why they are making a fuss as if they were hit by shower of bullets.

After all, they hoisted a white flag just one day after they themselves have been exposed to the despicable article-scattering which the DPRK has called into question and demanded a stop for years.

I doubt whether those in the ROK could only see the balloons flying southwards without catching sight of the balloons flying northwards.

Scum-like clans of the ROK are now blatantly claiming that their leaflet-scattering towards the DPRK is "freedom of expression" and that the corresponding act of the DPRK is an "obvious violation of international law".

Are the "freedom of expression" and "international law" defined according to the direction in which balloons fly?

It is the height of impudence.

It is an opportunity to reconfirm how clumsy and brazen the ROK clans are.

The ROK clans must be subject to due pains as they tried to scatter leaflets, the political agitation rubbish slandering the idea and system of the DPRK regarded by all its people as sacred, and inject their mixed ideas raised at cesspools to the DPRK, and made a serious mockery of our people by scattering the cheap money and trifles which even mongrel dogs wouldn't like.

If they experience how unpleasant the feeling of picking up filth is and how tired it is, they will know that it is not easy to dare talk about freedom of expression as to the scattering near border area.

Today, I will get the following stand into shape:

"As the leaflet-scattering to the ROK belongs to our people's freedom of expression and provides the people in the ROK with the right to know, there is a limit for the government of the Democratic People's Republic of Korea to immediately stop it. I courteously seek the ROK government's consent. ..."

The ROK clans cannot deprive the DPRK people of their righteous "freedom of expression".

They should continue to pick up rubbish scattered by our people, regarding them really as "sincere presents" to the goblins of liberal democracy who are crying for the "guarantee for freedom of expression".

We make it clear that we will respond to the ROK clans on case-to-case basis by scattering rubbish dozens of times more than those being scattered to us, in the future.

**PRESS STATEMENT OF KIM YO JONG, VICE DEPARTMENT  
DIRECTOR OF THE CENTRAL COMMITTEE OF THE  
WORKERS' PARTY OF KOREA**

*June 21, 2024*

The ROK connived at the provocative act of scattering the political agitation rubbish across the border of the DPRK again on June 6 and 7 despite our repeated warning against the intemperate psychological warfare of the scum who defected from the DPRK, thus aggravating the situation.

In the period between June 6 and 8, the despicable political agitation rubbish was discovered in Singye and Thosan counties of North Hwanghae Province, Jangphung County and Phanmun District of Kaesong Municipality, Kosan, Phyonggang and Cholwon counties of Kangwon Province and other areas of the DPRK near the border.

As already warned, the DPRK scattered 7.5 tons of waste paper with more than 1 400 balloons over the border of the ROK from the night of June 8 to the dawn of June 9.

As you will see, we have only scattered empty waste paper without any political agitation.

It is quite different from the provocative political agitation rubbish scattered by the scum of the ROK against the DPRK.

Our minimum reaction is only the just and reflective reaction at the very low level.

Our reaction was scheduled to end on June 9, but the situation has changed.

The reason was explained by the act of the ROK.

The loudspeaker broadcasting provocation started in the border area at last.

This is a prelude to a very dangerous situation.

Politicians of Seoul are trying hard to justify their stand with the only and strange deformed logic in the world that regulates and judges the "freedom of

expression" and "provocation" in the windward direction. And they formalized their behavior just like a guilty filing the suite first that they have resumed the loudspeaker broadcasting smear campaign again against the DPRK's counteraction against their challengeable act, thus creating a new crisis.

We strongly denounce the despicable and childish behavior of the ROK and clarify our stand responding to it.

If the ROK simultaneously carries out the leaflet scattering and loudspeaker broadcasting provocation over the border, it will undoubtedly witness the new counteraction of the DPRK.

The ROK will suffer a bitter embarrassment of picking up waste paper without rest and it will be its daily work.

I sternly warn Seoul to stop at once the dangerous act of bringing the further confrontation crisis and discipline itself.

**PRESS STATEMENT OF KIM YO JONG, VICE DEPARTMENT  
DIRECTOR OF THE CENTRAL COMMITTEE OF THE  
WORKERS' PARTY OF KOREA**

*June 21, 2024*

The border area of the DPRK was again littered with dirty wastepaper and things.

Those were found on farm fields, the margin of reservoirs and orchards near the border.

There is also a possibility to find such things in addition.

Disgusting defectors from the DPRK to the ROK, human scum, did not hide via report the fact that they sent leaflets over the border to our country.

Those human scum would be condemned by population of the ROK.

It is natural that there would be something trouble to happen as they did again what they had been urged not to do.

**PRESS STATEMENT OF KIM YO JONG, VICE DEPARTMENT  
DIRECTOR OF THE CENTRAL COMMITTEE OF THE  
WORKERS' PARTY OF KOREA**

*July 8, 2024*

The ROK military gangsters recently kicked off live ammunition firing drills on the ground and in the sea simultaneously near the southern border of the DPRK.

On June 26, they resumed their maritime firing drill that had been halted for a while in the biggest hotspot of the West Sea of Korea. They also launched artillery firing drills near the front, including eastern and western sectors along the southern border, all at once on July 2.

Not content with this, the impudent enemy announced their plan to regularly stage artillery firing drills and task forces' training near the border of the DPRK and kick off various other military exercises such as large-scale combined outdoor mobile drill and joint firing drill of army and navy, in particular.

I affirm that such an undisguised war game being staged by the enemy near the border of the DPRK is just an inexcusable and explicit provocation that aggravates the situation.

"War energy" has been over-concentrated on the Korean peninsula and its vicinity to reach the brink of explosion due to various war games of the U.S. and other hostile forces and ceaseless deployment of their cutting-edge war hardware.

Freedom Edge, the first multi-domain joint military exercises between the U.S., Japan and the ROK staged shortly ago in the waters near the DPRK, was the height of confrontational hysteria against it. The war drumbeats clearly showed that the U.S. and other hostile forces' rash maneuvers for military hegemony in the region have crossed the red line.

A touch-and-go situation is prevailing. Clear to everyone is the riskiness of the above-said reckless live ammunition firing drills of the ROK army coming nearer to the border of the DPRK under such situation.

Then, the question is why the enemy kicked off such war drills near the border, suicidal hysteria, for which they will have to sustain terrible disaster.

The world should pay attention to the fact that the number of people petitioning for proposing a bill on impeachment of Yoon Suk Yeol has exceeded one million as of now.

The Yoon and his group, plunged into the worst ruling crisis, are attempting an "emergency escape" through the platform of ever-escalating tensions.

That is the reason why the puppet regime persists in destabilizing the regional situation and stirring up the warmongering atmosphere in the face of internal and external criticism of the war maniacs, and even spearheads the extremely dangerous live ammunition drill in the areas near the border.

It would be hard to find current security environment in the past period of relations between the north and the south.

Anyone cannot but acknowledge that the president, elected by people, has made the fate of the ROK hang by a thread.

The war maniacs should judge by themselves what result such desperate war drill hysteria would bring in the end.

In case it is judged according to our criteria that they violated the sovereignty of the DPRK and committed an act tantamount to a declaration of war, our armed forces will immediately carry out its mission and duty assigned by the DPRK Constitution.

**PRESS STATEMENT OF KIM YO JONG, VICE DEPARTMENT  
DIRECTOR OF THE CENTRAL COMMITTEE OF THE  
WORKERS' PARTY OF KOREA**

*July 14, 2024*

Today I was informed that dirty leaflets and things of the ROK scum have been found again in the border area and some deep areas of the Democratic People's Republic of Korea.

Similar information was continuously reported by party organizations, military and social organizations at all levels on Sunday morning.

According to the information, the rubbishes were found in 17 places in Jangphung County of North Hwanghae Province and the area adjacent to it.

Units of the Korean People's Army, the Worker-Peasant Red Guards, public security and state security organs at all levels near the border are now making an all-out search, throwing into fire and disposing of the found rubbishes according to the regulation of dealing with enemy-dropped objects and providing against the possibility to find such things in addition.

Despite the repeated warnings of the DPRK, the ROK scum are not stopping this crude and dirty play.

As already warned, the scum, who are resorting to do this play, will be more strongly criticized by their people.

We have fully introduced our countermeasure in such situation.

The ROK clans will be tired from suffering a bitter embarrassment, and must be ready for paying a very high price for their dirty play.

**PRESS STATEMENT OF KIM YO JONG, VICE DEPARTMENT  
DIRECTOR OF THE CENTRAL COMMITTEE OF THE  
WORKERS' PARTY OF KOREA**

*July 16, 2024*

Twenty-nine large balloons sent by the scum in the ROK were discovered again on the southern border and in some deep areas of the DPRK at the dawn and in the morning of July 16.

Ten large balloons were found in Cholwon County, eight in Sinphyong County, five in Ichon County, four in Phangyo County, one in Koksan County and one in Phyonggang County, and specialized organs are now searching, disposing of and incinerating them.

Reports on founding leaflets have been also received in other various areas.

The specialized organs are busy with their work and people's inconvenience is increasing in many areas due to the blocking of relevant districts.

It seems that the situation we cannot overlook is coming.

We give the scum a stern warning again.

They should be ready for paying a gruesome and dear price.

If the ROK scum persist in their crude and dirty play, the mode of counteraction of the DPRK will inevitably be changed.
