Deepak

I'm sorry  
Can't make tomorrow  
Will have to reschedule  
Hope it's ok  
Still on end of hectic tour  
Love

D

04:11:35 pm

No problem . Can you call me?

04:16:23 pm

Deepak

I will see you at 1030 AM  
Will reschedule other stuff  
Love and thanks

I sent [REDACTED] request for her details . I only met her in the street two weeks ago  
07:49:31 pm

Deepak

D

Amazing ! How did you pick her up ?  
07:50:13 pm

Deepak

Aha !  
I have much to learn 🕉  
09:40:18 pm

D

In many ways [REDACTED] is more connected to " reality " than the brilliant scientists.  
I felt connected to her at the level of awareness

Deepak

D

It's ok  
Thanks for today  
09:57:09 pm

I liked watching you zero in on your prey . Made me smile

The body itself is an experience in awareness  
I connected with [REDACTED] I awareness and she felt it  
Awareness is all there is  
The rest is a mind fuck

Are we still planning the board game ?

09:54:24 am

yes, and the app.  
09:55:44 am

brain working question. why does solitary confinement a punishment. most people study brains do not include its environment

09:56:37 am

EFTA01619498

Deepak

I have been obsessed now with the whole notion of all reality being a human construct !

What is the real reality behind the constructs ?

Punishment itself is a human creation

As is the idea that there is a brain

There is only experience and the knowing and then the constructs . The brain is not a physical object ( there are no objects ) It is an experience - a perceptual experience - a Perceptual process - in non local awareness - as is the " feeling " " I "

This process includes - environment ( another process ) thoughts , emotions , sensations , images .

There is nothing else! Just awareness and its excitations - as process in awareness .

We are fictional characters in a fictional playground .

We need to have a project , a conversation around The Reality Project and Human Constructs

We have been bamboozled by a superstition !

Science is part of the superstition

I'm personally committed more than ever on experiencing reality devoid of constructs .

Awareness and its delicious sensations , generated in awareness , experienced in awareness , known in awareness and made out of awareness

10:11:50 am

D

I like the App idea too

10:12:11 am

[REDACTED]

I think you should ask why does a brain in solitary confinement , go haywire

10:13:10 am

o

EFTA01619499

Deepak

It goes haywire because it's the product of a relational and embodied process .  
Nothing ( no thing ) exists by itself !

Buddha " we are inter beings in the inter- is- ness . There is only the inter - is - ness.  
To separate the biological organism from the environment is a human construct . It's a unified single process

The air is also your breath , the earth recycles as your body , the oceans are your circulation , the light of the stars is your vision , the trees are your lungs and all sentient beings are your food and life blood .

We hang out with sentient beings of our own kind for sensory stimulation and to reproduce and experience sensual and sexual delight

But these are words invented by us to describe experiences.

They can never adequately describe reality

The map is not the territory

Btw ask Gromov to look up Alfred Korzybski

10:28:04 am

Going to Huff Post to do live media

My quote for today

The sea of consciousness from which all minds derive-that is the goal of all finite minds.

Did you check your email ?

EFTA01619500

EVERY FORM AND PHENOMENON  
THAT WE HAVE GIVEN A NAME  
TO IS A HUMAN CONSTRUCT.  
FUNDAMENTAL REALITY IS THE TIMELESS AWARENESS,  
THE EXCITATIONS OF WHICH,  
ARE BOTH OBSERVER  
AND OBSERVED IN EVERY MOMENT OF NOW.

12:51:01 pm

We are bamboozled by our own constructs  
Even willing to kill for them
